REDACTED - FOR PUBLIC INSPECTION

VIA OVERNIGHT DELIVERY

June 27, 2014

Ms. Marlene H. Dortch, Secretary Federal Communications Commission Office of the Secretary 445 12th Street, S.W. Washington, D.C. 20554 Received a inspected
JUL 0 1 2014
FCC Mail Room

RE: REQUEST FOR CONFIDENTIAL TREATMENT - Connect America Fund, WC Docket No. 10-90; Lifeline and Link Up Reform and Modernization, WC Docket No. 11-42

Request that Information Submitted to the Commission be Withheld from Public Inspection Pursuant to 47 C.F.R. §0.459 and 5 U.S.C. §552(b)(4): Five-Year Service Quality Improvement Plan included in FCC Form 481

Confidential Financial Information – Subject to Protective Order in WC Docket Nos. 10-90, 07-135, 05-337, 03-109, CC Docket Nos. 01-92, 96-45, GN Docket No. 09-51, WT Docket No. 10-208, Before the Federal Communications Commission

Dear Ms. Dortch:

In accordance with the annual reporting requirements of 47 C.F.R. §§54.313 and 54.422, San Carlos Apache Telecommunications Utility, Inc. ("SCATUI" or "the Company"), Study Area Code 452169, is submitting a completed FCC Form 481 to the Commission via its Electronic Comment Filing System (ECFS) in WC Docket Nos. 10-90 and 11-42. The Company, by its authorized representative, hereby requests confidential treatment of two attachments to its FCC Form 481: (1) the five-year service quality improvement plan and (2) the financial annual report, both of which were redacted in the ECFS submission. The request for confidential treatment of the five-year plan is being made pursuant to section 0.459 of the Commission's rules and Exemption 4 of the Freedom of Information Act (FOIA). The request for confidential treatment of the financial annual report is being made pursuant to the FCC's November 16, 2012 Protective Order in WC Docket No. 10-90 et al. These attachments contain competitively sensitive data that SCATUI maintains as confidential and does not normally make available to the public. Release of this information would have a substantial negative impact on the Company.

Ms. Marlene H. Dortch June 27, 2014 Page 2 of 5

Five-Year Service Quality Improvement Plan

Pursuant to section 0.459 of the Commission's rules and Exemption 4 of FOIA, SCATUI requests that the text and data extracted from its five-year service quality improvement plan be withheld from public inspection because it contains competitively sensitive commercial and financial information that the Company keeps confidential. Public availability of this information would have a substantial negative impact on the Company.

In accordance with section 0.459 of the Commission's rules, the following information is provided in support of this request:

(1) Identification of the specific information for which confidential treatment is sought:

Attachment to Line 112 of FCC Form 481 – Five-Year Service Quality Improvement Plan. Specifically, confidential treatment is sought for all information in the five-year plan related to the Company's access line counts, existing broadband capabilities, and its network investment plans through 2019 that will improve service quality for its customers.

(2) Identification of the Commission proceeding in which the information was submitted or a description of the circumstances giving rise to the submission:

The information was submitted in WC Docket Nos. 10-90 and 11-42 as an attachment to FCC Form 481- the Carrier Annual Reporting Data Collection Form. Section 100 of FCC Form 481 requires incumbent local exchange carriers receiving high cost support to attach a five-year service quality improvement plan, pursuant to 47 C.F.R. §§54.202(a)(1)(ii) and 54.313(a)(1).

(3) Explanation of the degree to which the information is commercial or financial, or contains a trade secret or is privileged:

The five-year service quality improvement plan contains granular information on the Company's access line counts and existing broadband capabilities as well as detailed plans for financial investments in its network through 2019 to improve service to subscribers. This is closely guarded, privileged information that the Company does not make publicly available.

(4) Explanation of the degree to which the information concerns a service that is subject to competition:

Broadband is subject to increasing competition in the areas served by rural, rate-of-return incumbent local exchange carriers (RLECs). Virtually all RLECs face competition from one or more wireless Internet service providers. Most RLECs also face competition from at least one other wireline broadband provider such as a larger cable company, who will typically seek to "cherry pick" the lower cost portions of the study area. In addition, all RLECs face competition throughout their territories from satellite broadband providers.

Ms. Marlene H. Dortch June 27, 2014 Page 3 of 5

(5) Explanation of how disclosure of the information could result in substantial competitive harm:

Disclosure of the information contained in the five-year plan would provide competitors with detailed, granular information regarding the Company's access line count, its existing broadband capabilities, and its strategic plans for network investments. This would give competitors invaluable confidential information with which to develop their own strategies for investing in the service area, thereby bringing substantial competitive harm to the Company.

(6) Identification of any measures taken by the submitting party to prevent unauthorized disclosure:

The Company has continually treated the extracted information in its five-year plan as confidential and carefully controls the information to protect it from competitors. Access to the information is limited to employees that require it and to non-employees with confidentiality obligations such as lenders, consultants, auditors, and attorneys. In addition, when such information is required to be submitted to a state regulatory authority it has been filed as confidential information, not available to the public.

(7) Identification of whether the information is available to the public and the extent of any previous disclosure of the information to third parties:

The redacted information in the five-year plan is not available to the public, and third party access is limited as described in (6) above.

(8) Justification of the period during which the submitting party asserts that material should not be available for public disclosure:

The Company requests that the extracted information be withheld from public inspection indefinitely. Although the information reflects the Company's service improvement plans for a five year period, it would provide a very useful baseline for competitors for several years beyond that period.

(9) Any other information that the party seeking confidential information treatment believes may be useful in assessing whether its request for confidentiality should be granted:

Exemption 4 of FOIA shields from public disclosure commercial or financial information obtained from a person that is privileged or confidential. Based on the responses provided above, the information in question satisfies this test.

Ms. Marlene H. Dortch June 27, 2014 Page 4 of 5

Financial Annual Report

Section 3005 of FCC Form 481 requires a privately-held rate-of-return carrier receiving high cost support to attach a full and complete annual report of the company's financial condition and operations pursuant to 47 C.F.R. §54.313(f)(2). SCATUI seeks confidential treatment of its financial annual report pursuant to the November 16, 2012 *Protective Order* in WC Docket No. 10-90, et al.¹ The *Protective Order* specifically covers information filed pursuant to 47 C.F.R. §54.313(f)(2).

SCATUI is providing to the Office of the Secretary, under seal, this cover letter and the Form 481 filing which includes the confidential information that is being requested to be withheld from public inspection.

Each page of the five-year service quality improvement plan confidential submission bears the legend, "CONFIDENTIAL - NOT FOR PUBLIC DISCLOSURE."

Each page of the financial annual report confidential submission bears the legend, "CONFIDENTIAL FINANCIAL INFORMATION - SUBJECT TO PROTECTIVE ORDER IN WC DOCKET NOS. 10-90, 07-135, 05-337, 03-109, CC DOCKET NOS. 01-92, 96-45, GN DOCKET NO. 09-51, WT DOCKET NO. 10-208, BEFORE THE FEDERAL COMMUNICATIONS COMMISSION."

Two copies of the Form 481 filing in redacted form and an accompanying cover letter are also being provided with the confidential filing. Each page of the redacted filing and accompanying cover letter is marked "REDACTED – FOR PUBLIC INSPECTION."

Two copies of this cover letter and the Form 481 filing with the confidential information are also being delivered to Mr. Charles Tyler, Telecommunications Access Policy Division, Wireline Competition Bureau.

The confidential information has also been submitted to the Universal Service Administrative Company through its E-File system as an attachment to the FCC Form 481.

¹ Connect America Fund et al., WC Docket No. 10-90 et al., Protective Order, DA 12-1857 (rel. Nov. 16, 2012).

Ms. Marlene Dortch June 27, 2014 Page 5 of 5

This cover letter includes no confidential information and the text is the same in both the non-redacted and redacted versions except for the confidentiality markings.

Please contact me if you have any questions.

LINE 112 - FIVE-YEAR SERVICE QUALITY IMPROVEMENT PLAN

San Carlos Apache Telecommunications Utility, Inc. ("SCATUI" or "the Company") herein submits this carefully developed five-year service quality improvement plan. In accordance with 47 C.F.R. §54.202(a)(1)(ii), the plan describes with specificity proposed improvements or upgrades to the Company's network for the years 2015 through 2019.

OVERVIEW

SCATUI is a tribally owned rate-of-return rural incumbent local exchange carrier ("ILEC") that serves the San Carlos Apache Reservation in portions of three counties in eastern Arizona. The Company serves one exchange, San Carlos, with one wire center, Peridot. SCATUI is not subject to the jurisdiction of a state regulatory authority and was designated an eligible telecommunications carrier ("ETC") by the Federal Communications Commission ("FCC") in 1998.

SCATUI's service area is approximately 2,927 square miles with a population of approximately 10,000 and a population density of approximately three persons per square mile. The average median annual household income for the service area is estimated at approximately \$27,000 with a per capita yearly income around \$10,222.

This document contains descriptions of SCATUI's proposed network improvements for each the next five years. Detailed expenditures on an exchange and wire center basis are contained in the attached spreadsheets. Area and population estimates impacted by the improvements are also identified in the spreadsheets. Where appropriate, costs are broken out by voice and broadband service. Otherwise, costs represent network improvements common to both services.

- Network improvement expenditures identify the cost to provide those services supported
 by the universal service funding mechanisms. When a project involves expenditures for
 both regulated and non-regulated services, the non-regulated investment costs have been
 removed. The Company estimates non-regulated costs using the appropriate allocation
 rules. Details of those costs are retained by the Company and available for inspection.
- Costs are reported only for those service areas in which the Company is authorized to receive Universal Service Fund ("USF") support. Costs incurred outside the authorized area, if any, are excluded.

Due to the uncertainty of the amount of USF support the company may receive in future years, SCATUI cautions that specific network improvement projects and service goals may be modified to accommodate the actual amount of support that will be received.

BASELINE INFORMATION

2013

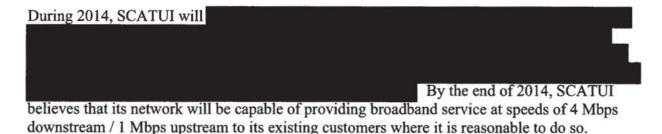

At the end of December 2013, SCATUI was providing voice service to access lines and providing digital subscriber line (DSL) broadband service to customers. In addition, SCATUI had customers taking advantage of the Lifeline Program for discounted telephone service for low-income subscribers at the end of 2013.

SCATUI received a total of \$3,243,703 in high-cost universal service support during calendar year 2013. The support amounts from the various support mechanisms were:

•	High Cost Loop Support:	\$1	,607,191
•	Interstate Common Line Support:	\$1	,056,732
•	Connect America Fund Intercarrier Compensation Support:	\$	522,324
•	Safety Net Additive:	\$	57,456

During 2013, SCATUI used substantial funds to maintain, upgrade and improve the Company's network and to improve voice and broadband services to customers throughout its service area. In addition, SCATUI has made necessary investments in its network in order to: (1) respond to its customers' reasonable requests for service at new locations, (2) replace plant as needed to maintain the overall quality of voice and broadband services, and (3) enhance switching capabilities to meet regulatory requirements and customers' demands for service.

2014

DESCRIPTION OF IMPROVEMENT PLAN BY YEAR (2015–019)

SCATUI's five-year service quality improvement plan is designed to identify multiple capital investment projects that are necessary to meet or exceed the FCC's broadband public interest obligation of 4 Mbps downstream / 1 Mbps upstream throughout the service area while improving the quality and reliability of its voice and broadband services. A description of these projects is included below for each year of the plan.

LINE 310 - UNFULFILLED SERVICE REQUESTS (VOICE)

In 2013, San Carlos Apache Telecommunications Utility, Inc. ("the Company") had 11 unfulfilled requests for voice service. All 11 requests are in a new residential subdivision where there is no in-ground infrastructure. The Company will serve this new subdivision through a fiber-to-the-home project funded by an existing American Recovery and Reinvestment Act grant. However, to do this, the Company had to submit a revision to its plans for the grant funding so that funds could be reallocated for this new project. The Company expects to have service to these residences by the end of 2014.

LINE 330 - UNFULFILLED SERVICE REQUESTS (BROADBAND)

In 2013, San Carlos Apache Telecommunications Utility, Inc. ("the Company") had seven unfulfilled requests for broadband service. All seven requests are in a new residential subdivision where there is no in-ground infrastructure. The Company will serve this new subdivision through a fiber-to-the-home project funded by an existing American Recovery and Reinvestment Act grant. However, to do this, the Company had to submit a revision to its plans for the grant funding so that funds could be reallocated for this new project. The Company expects to have service to these residences by the end of 2014.

LINE 510 – SERVICE QUALITY STANDARDS AND CONSUMER PROTECTION RULES COMPLIANCE

San Carlos Apache Telecommunications Utility, Inc. ("the Company") complies with applicable service quality standards and consumer protection rules for its voice and broadband services.

The Company is owned by the San Carlos Apache Tribe. It is therefore reasonable that the Company operates under service quality standards and consumer protection rules that are in the best interest of its customers, who are mostly members of the Tribe.

The rates, terms and conditions under which the Company operates are outlined in its local exchange tariff. The tariff was modeled after the tariffs of state-regulated rural incumbent local exchange carriers, although the Company itself is not regulated by the Arizona Corporation Commission. The Company modifies its tariff from time to time with approval of, or at the request of the Tribal Council. The Company's tariff contains provisions regarding its customer service and protection practices.

Service quality standards are established by the Company Board of Directors with a Tribal Council liaison sitting on the Board. Monthly reports on service quality compliance are provided to the Board, with periodic updates to the Tribal Council.

With regard to broadband service, the Company provisions its network and equipment to ensure that its customers can enjoy the speeds to which they subscribe. However, Internet speeds generally result from a "best effort" service and are dependent upon a number of variables, many of which are outside the control of the Company.

The Company also complies with the following consumer best practices: (1) the Company discloses its rates and terms of service to customers; (2) the Company provides specific disclosures in its advertising; (3) the Company separately identifies carrier charges from taxes on its billing statements; (4) the Company provides ready access to customer service; (5) the Company promptly responds to consumer inquiries and complaints received from government agencies; and (6) the Company abides by policies for protection of consumer privacy.

Finally, the Company has a policy and established operating procedures that comply with the FCC's Customer Proprietary Network Information (CPNI) rules (47 C.F.R. §§64.2001-64.2011). Certification of the Company's compliance with CPNI rules and a description of the Company's operating procedures that ensure compliance are filed annually with the FCC.

LINE 610 - FUNCTIONALITY IN EMERGENCY SITUATIONS

San Carlos Apache Telecommunications Utility, Inc. ("the Company") is able to function in emergency situations for both voice and broadband service. The Company has a reasonable amount of back-up power to ensure functionality without an external power source. Standby power generators are supplied at the central office, remote switch sites, and repeater sites to ensure functionality without an external power source until power is restored, so long as fuel is available. The network is capable of managing traffic spikes resulting from emergency situations.

The Company is able to reroute traffic around damaged facilities. Although the Company's ability to reroute traffic around damaged facilities is not absolute and may be limited in certain circumstances, there is a restoration plan in place for expeditious recovery of service, including splicing of damaged facilities when warranted.

The Company has three Sonet fiber rings that increase the survivability of its network. The rings allow the Company to maintain service to its remote electronic sites in the event of a fiber outage, making the Company's network efficient, economical, and reliable.

San Carlos Apache Telecommunications Utility, Inc.

LINE 920 - TRIBAL GOVERNMENT ENGAGEMENT OBLIGATION

San Carlos Apache Telecommunications Utility, Inc. ("SCATUI" or "the Company") is a tribally owned company and as such, engagement with the San Carlos Apache Tribe ("SCAT" or "the Tribe") and the Tribal Council are essential to the Company's operation. SCATUI's General Manager along with the President or other member of its Board of Directors meet with the San Carlos Apache Tribal Council and other SCAT representatives on a quarterly basis. During those meetings, the Company provides progress reports on its various communications and broadband plans, and engages in conversations regarding any modifications needed to meet the needs of the Tribe. Presently, four members of the Tribal Council sit on SCATUI's Board of Directors, with each member representing one of the four districts of the reservation.

SCATUI's General Manager and management team also participate in SCAT's annual Special Council meeting. During the annual meeting, SCATUI presents its year-end accomplishments, financial information, and future goals and projects for the coming year.

Needs Assessment and Deployment Planning with a Focus on Tribal Community Anchor Institutions

Since SCATUI's inception, discussions between the Company and the Tribe regarding needs assessment and deployment planning have been integral to the growth in its customer base on the reservation from approximately 600 in 1998 to over 2,700 in 2014. Ongoing discussions and planning result in the deployment of new services to existing customers as well as the extension of telecommunications and broadband services to new anchor institutions and housing developments on the reservation. This includes a new hospital and a proposed new school which is planned to open in the fall of 2014.

In addition, funding from the American Recovery and Reinvestment Act has made fiber-to-the-home deployment possible in a new housing development and will also fund fiber build out to other housing communities presently served via copper.

Feasibility and Sustainability Planning

At least every five years the Tribe develops a comprehensive economic development strategy and SCATUI is an active participant in the planning process. The next strategic plan is scheduled for publication in 2014.

Marketing in a Culturally Sensitive Manner

Marketing is done in a culturally sensitive manner. SCATUI participates in community meetings where it presents information on its services to the public, including its Lifeline program offerings. The presentations are provided in the Apache language for those residents who only speak Apache. Other services have been customized to meet the needs of the public such as voice mail verbal instructions offered in the Apache language. The majority of the Company's employees are members of the SCAT, understand the

community's needs, and are sensitive to the cultural differences of its customers. SCATUI collaborates with the Tribal Language Preservation program by placing "Apache Word of the Week" ads on its local advertising channel. Local businesses also offer auto-attendant call recordings in the Apache language for Apache speaking customers.

Compliance with Rights of Way Processes, Land Use Permitting Requirements, Facilities Sitting Rules, Environmental Review Processes, and Cultural Preservation Review Processes

During the quarterly meetings and ongoing as necessary, SCATUI engages with the Tribal Council and respective Tribal departments regarding right-of-way processes, land use permitting requirements, facilities sitting rules, environmental review processes, and cultural preservation review processes specific to each of the Company's projects.

Compliance with Tribal Business and Licensing Requirements

SCATUI complies with all Tribal business and licensing requirements. The Company is required to obtain a Tribal Privilege License. It must also apply annually for a Tribal Business License as well as a Land Lease agreement.

LINE 1010 - VOICE SERVICES RATE COMPARABILITY

The Wireline Competition Bureau's most recent reasonable comparability benchmark for voice services is \$46.96, which includes the federal subscriber line charge ("SLC").¹

In all of the exchanges served by San Carlos Apache Telecommunications Utility, Inc. ("the Company"), the single-line residential local rate is \$15.00. When the federal SLC (\$6.50) is included, the rate becomes \$21.50. Therefore, the Company's pricing of fixed voice services is less than the reasonable comparability benchmark of \$46.96.

¹ Wireline Competition Bureau Announces Results of Urban Rate Survey for Voice Services; Seeks Comment on Petition for Extension of Time to Comply With New Rate Floor, WC Docket No. 10-90, DA 14-384 (rel. Mar. 20, 2014), p. 2.

LINE 1210 - TERMS & CONDITIONS OF VOICE TELEPHONY LIFELINE PLANS

All of the exchanges served by San Carlos Apache Telecommunications Utility, Inc. ("the Company") are Tribal lands. In all of the Company's exchanges, residential customers who qualify for the Lifeline Program receive a discount of \$21.50 on local voice telephony service.

In all of the Company's exchanges, the Lifeline single-line residential rate, including the federal SLC, is \$0.00 (\$21.50 standard rate - \$21.50 discount).

All single-line residential customers, including Lifeline customers, have an unlimited number of minutes for calls made within their local calling area.

Toll charges for calls outside of the local calling area are determined by the long distance carrier of the customer's choosing. Lifeline customers may elect to subscribe to toll blocking at no charge.

The Company does not disconnect the service of Lifeline subscribers for the non-payment of toll charges. However, the Company reserves the right to implement toll blocking, at no charge, if the customer incurs a significant balance of unpaid toll bills.

The Company offers bundled services to Lifeline customers that are discounted by \$21.50 for the voice component of the bundle.

Lifeline Program reductions do not apply to additional services such as custom calling features. Lifeline customers may subscribe to these services at the same rates offered to other customers.

Additional information regarding the terms and conditions of voice telephony Lifeline plans can be found at http://scatui.com/telephone/e-lifelinee-linkup/.

March 18, 2014

Mrs. Shirley Ortiz, Manager San Carlos Apache Telecommunications Utility, Inc. P. O. Box 1000 Peridot, AZ 85542-1000

Dear Shirley:

Enclosed is the 2013 Unaudited Operating Report for Telecommunications Borrowers you submitted to the RUS. Also enclosed is our compilation letter for the financial statements used to prepare this report.

Please let us know if you have any questions.

Sincerely,

CURTIS BLAKELY & CO., P.C.

Blake Lackey, CPA

March 18, 2014

To the Board of Directors
San Carlos Apache Telecommunications Utility, Inc.
Peridot, AZ

Gentlemen:

We have compiled the accompanying balance sheet of San Carlos Apache Telecommunications Utility, Inc. as of December 31, 2013, and the related statements of income, cash flows and retained earnings for the year then ended, included in the accompanying prescribed form, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

Our compilation was limited to presenting in the form prescribed by the Rural Utilities Service (RUS) information that is the representation of management. We have not audited or reviewed the financial statements referred to above and, accordingly, do not express an opinion or any other form of assurance on them.

These financial statements are presented in accordance with the requirements of the RUS, which differ from generally accepted accounting principles. Accordingly, these financial statements are not designed for those who are not informed about such differences.

Curtis Blakely + Co, P.C.
